### PROFESSIONAL SUMMARY

Frontend Developer with over 1 years of experience in designing and developing user-centric web applications using JavaScript, TypeScript, and modern frontend technologies such as React.js, Next.js, and Material-UI. Proven ability to create responsive, accessible, and scalable web applications. Adept at using version control tools like Git and collaborating in Agile/Scrum environments to deliver high-quality, production-ready code.

### WORK EXPERIENCE

#### Frontend Developer

Oct 2024 - April 2025

##### Vsco Tek

- Developed and maintained multiple web applications, ensuring responsiveness and high performance across different devices and browsers.
- Collaborated with the backend team to integrate APIs and ensure seamless front-to-back communication.
- Optimized web applications for speed and scalability, reducing page load times by 20%.
- Leveraged React.js and Next.js to create modular and reusable components, improving development efficiency.
- Ensured consistent design implementation using Material UI for user interfaces.
- Contributed to code reviews and participated in daily stand-ups as part of an Agile team.

#### Internship

March 2024 - July 2024

##### Mega Parsec

- Assisted in developing user interfaces using React.js, Next.js, and TypeScript for a real-world product under the guidance of senior developers
- Contributed to building reusable UI components with Material-UI, ensuring responsiveness and testing, and deployment.
- Gained hands-on experience with Git version control and GitHub for project management and collaboration.
- Worked closely with the design team to ensure pixel-perfect implementation of UI/UX designs.
